

Webinars: Fundamentals of equine practice

A practical approach to equine urinary tract disorders

Tuesday 20th May 2025

About this course

This webinar covers the equine urinary system and common and some less common pathologies. We will work through the diagnostics available in the field and in the referral setting as well as the most recent scientific evidence on how to manage renal diseases in horses.

Why do this course?

This course will equip delegates with the knowledge to identify and localise signs of urogenital disease, what diagnostics to pursue and how and when to treat.

Key areas

- Cranial nerves
- Disorders of lower motor neurons
- Neuropathic pain

The webinar will run **12.30pm to 1.30pm** London time on the above date.

Tutor

Jenny Reed, BVM&S DipACVIM (LAIM) MRCVS
Lecturer in Equine Surgery
The Royal Veterinary College
