

Webinars: Fundamentals of equine practice

Hindlimb lameness cases

Tuesday 8th July 2025

Do you want to work through some real life cases?

About this course

This webinar will give you a fantastic opportunity to review diagnostic analgesia results, imaging findings, treatment administered and outcomes on some real life cases!

Join Andy Fiske-Jackson, Associate Professor, RCVS and European Specialist in Equine Surgery, on this webinar where he works through 3-4 cases that he has worked up and treated over the last couple of years. He talks through and illustrates his approach of working up lameness cases with an honest appraisal of the pros and cons of different diagnostic tests and treatments for different circumstances and cases.

Why do this course?

This webinar is particularly useful for those veterinarians seeing lame horses. He covers hindlimb ailments that could easily be encountered in the field and gives an insight into his thoughts and experiences when working up lameness cases.

Key Areas

- Lameness
- Diagnostic imaging
- Orthopaedic treatments

The webinar will run **12.30pm to 1.30pm** on the above date.

Tutor

Andy Fiske-Jackson
