

Webinars: Fundamentals of equine practice

Nervous about nerves: Disorders of the peripheral nervous system

Tuesday 13th May 2025

Are you nervous about the nervous system?

About this course

This webinar discusses how to approach conditions of the peripheral nervous system including those associated with cranial nerves, such as vestibular disease, and lower motor neuron diseases. Using case examples, we will work through diagnostics as well as possible treatments and outcomes.

Why do this course?

This webinar is aimed at ambulatory practitioners who may face these challenging diagnostic cases in the field and would like to feel less nervous about nervous conditions and the therapeutics available to treat them.

Key areas

- Cranial nerves
- Disorders of lower motor neurons
- Neuropathic pain

The webinar will run **12.30pm to 1.30pm** London time on the above date.

Tutor

Jenny Reed, BVM&S DipACVIM (LAIM) MRCVS
Lecturer in Equine Surgery
The Royal Veterinary College
