

## Webinars: Fundamentals of equine practice

### Forelimb lameness cases

Tuesday 1st July 2025

*This webinar will give you a fantastic opportunity to review diagnostic analgesia results, imaging findings, treatment administered and outcomes on some real-life cases!*

#### About this course

This webinar includes real-life cases that have been diagnosed and treated over the last couple of years. A systematic approach of working up lameness cases with an honest appraisal of the pros and cons of different diagnostic tests and treatments for different circumstances and cases will be covered.

#### Why do this course?

This webinar is particularly useful for those veterinarians seeing lame horses. It will cover common distal limb ailments that could easily be encountered in the field and give an insight into his thoughts and experiences when working up lameness cases.

#### Key Areas

- Lameness
- Diagnostic imaging
- Orthopaedic treatments

The webinar will run **12.30pm to 1.30pm** on the above date.

### Tutor

#### Andy Fiske-Jackson
