

Webinars: Fundamentals of equine practice

Managing acute and chronic laminitis - Conserve and realign that pedal bone!

Tuesday 7th May 2024

About this course

Laminitis is a very common ailment for practitioners to deal with. We will go over the different causes, how to recognise and treat it in the acute phase, and how quickly to attempt to move into pedal bone re-alignment strategies. What shoeing options are available? Is it a one size fits all? How to manage client's expectations.

Why do this course?

By the end of the webinar delegates will have the tools and knowledge of how to manage acute and chronic laminitis in the field. They will have the confidence to set out a coherent plan for the client and be able to work with the farrier to bring about the best outcome for the patient.

Key areas

- Laminitis
- Farriery
- Pituitary pars intermedia dysfunction
- Lameness

The webinar will run **12.30pm to 1.30pm** London time on the above date.

Tutor

Andy Fiske-Jackson, BVSc MVetMed DipECVS FHEA MRCVS
Associate Professor of Equine Surgery
The Royal Veterinary College
