

## Webinars: Fundamentals of equine practice

### Introduction to ultrasound guided injections- watch your needle go exactly where you want it!

Tuesday 30th April 2024

#### About this course

This webinar will instruct on how to perform ultrasound guided injections in practice. We will go through a checklist of principles and kit required. Tricks on how to make the technique easier. We will look at specific examples of where the technique can be used both in terms of aspirating, or injecting.

#### Why do this course?

By the end of the webinar delegates will have the tools and knowledge of how to perform ultrasound guided injections. They will have been given specific ways to practise the technique before attempting it on live patients and will have guidance on the most appropriate cases to get started on.

#### Key areas

- Ultrasonography
- Lameness work-up
- Orthopaedic therapies
- Ultrasound guided surgery

The webinar will run **12.30pm to 1.30pm** London time on the above date.
