

Webinars: Fundamentals of equine practice

How to perform emergency tracheostomy, chest drain placement, ligation of the common carotid artery and manage castration complications

Friday 6th September 2019

How to perform emergency tracheostomy, chest drain placement, ligation of the common carotid artery and manage castration complications

This course is aimed at describing the main indications and how to best perform certain surgical procedures out in the field in an urgent setting.

It is designed to give the practitioners who deal with horses the confidence to treat some surgical conditions in the field in an emergency situation.

Why do this course?

The key areas that will be covered by the lecture are the main indications to perform the emergency procedures listed above and to describe how to best perform them.

The webinar will run on from **12.00pm to 2.00pm** London time including a 30 minute registration and familiarisation period prior to the commencement of the lecture.

Tutor

Melanie Perrier Dr.med.vet DipDACVS DipDECVS CERP MRCVS

Lecturer in Equine Surgery
