

Webinars: Fundamentals of equine practice

The non weight bearing horse including fracture stabilisation

Friday 20th September 2019

How comfortable do you feel with approaching equine orthopaedic emergencies?

Managing and non-weight bearing horse can be stressful. This webinar provides the basis for successful examination, triage and management of equine orthopaedic emergencies in the field.

This webinar is aimed at new graduates, but also serves a useful refresher for more experienced equine veterinary surgeons

Key areas:

- Fracture immobilisation
- Field emergencies
- Triage
- Examination

The webinar will run on from **12.00pm to 2.00pm** London time including a 30 minute registration and familiarisation period prior to the commencement of the lecture.

Tutor

David Bolt Dr.med.vet. MS DipACVS DipECVS DipECVDI LA Assoc. FHEA MRCVS
Senior Lecturer in Equine Surgery
Royal Veterinary College
