

Webinars: Fundamentals of equine practice

Decision making with a horse with colic

Friday 27th September 2019

Are you dreading the call to go out and see a colic? Do you often worry whether or not you made the right decision

This course discusses colic work up and decision making in colic cases in detail, covering common and not so common causes of colic, how to manage and when to refer the case.

Dealing with a colicing horse quickly, competently and confidently can make the difference between life and death for the horse and offers reassurance to an already distressed owner.

Why do this course?

Colic work up, decision making and treatment of colic in the field. Colic work up in the hospital setting that is relevant to ambulatory veterinarians will also be discussed.

The webinar will run on from **12.00pm to 2.00pm** London time including a 30 minute registration and familiarisation period prior to the commencement of the lecture.
